

A Readme File Describing How To Run Our Code.

Steps:

1.) Open the google collab link:

<https://colab.research.google.com/drive/12zoIXtk4iuO330NKCCdJi6HDza12VVI?usp=sharing>

2.) On the **left** of the screen. Click on the **fourth button/option** (named: **Files**).

3.) Now click the **first button** from the three shown.

And **upload the data.csv file from the zip folder.**

1.) If Some errors occurs like:

Reminder, uploaded files will get deleted when this runtime is recycled.

[More info](#)

- Just Press **OK**.

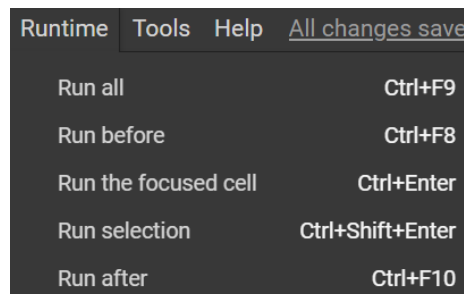

Be assured that the data.csv file has been uploaded successfully and it is visible like shown in above image.

4.) Now from the **top bar in colab**.

Select **RunTime** and click on **Run all** option or directly we can use **command (Ctrl + F9)**

If **Some error comes like:**

Warning: This notebook was not authored by Google.

This notebook was authored by **goel.7@iitj.ac.in**. It may request access to your data stored with Google, or read data and credentials from other sessions. Please review the source code before executing this notebook. Please contact the creator of this notebook at **goel.7@iitj.ac.in** with any additional questions.

Cancel

Run anyway

- Click on **Run anyway**.

5.) Now the **output of the code should be visible**.
